

# Human Trafficking Seminar

Monday, March 22

7-8:30 pm

**Baker Street Community Church  
640 Baker Street ~ Wis. Rapids**

*In our modern world, there is a perception that slavery is something that happened a long time ago. People talk about slavery in the past tense, like it is no longer an issue. The sad reality is that an estimated 27 million people are enslaved around the world today - more than at any other point in history. Modern-day slavery, while not as overt or easy to spot as it once was, is no less cruel or widespread.*

**Plan now to attend this informative seminar featuring someone who has seen today's slavery first hand in Cambodia, and staff from the Family Center who have worked with local trafficking victims... yes, it's happening in our own community!**

**Find out what it is...how it happens...and what you can do about it.**
